WM. LARUE WITMER, Rector.

A casual survey of the local situation will convince any one who is "not so blind that he will not see" that the eighteenth amendment and the Volstead act have by no means improved conditions as we were promised they would.

J. A. Haven of Middlebrook was in Ironton one day last week. Mr. Haven tells us that he recently made a trip to Redford, in Reynolds county, where he taught school 28 years ago. He says he met many old friends and had a most enjoyable time.

Mrs. A. L. Willard last Saturday morning sent to this office some very fine, large cherries, grown in the orchard of her daughter, Mrs. Hugh

Bonham, in Oregon. They are known as "The Black Republican" variety. Needless to say the fruit is far superior to what the name would indicate.

J. A. Francis, who has been in the mercantile business in Ironton the past year, has closed out his stock and moved to Washington county, within three miles of Belgrade, where he will conduct a stove factory. He has leased his store building and residence here to D. A. Middleton who will open a music store.

Miss Helen Karsch delightfully entertained with a dinner and theatre party last Thursday evening in honor of Misses Marion Huff and Arline Tual, of Ironton. The dining room was tastefully decorated and the dinner was served in excellent style. All present expressed themselves as having spent a delightful evening.—Farmington Times.

John W. Berryman, of Poplar Bluff, former resident of Iron county, is a candidate for the Democratic nomination for Presiding Judge of the Butler county court. He has no opponent in the race. Here's luck to him in November. Mr. Berryman has overcome Republican majorities in previous contests in Butler. Let us hope he will do so this year.

Capt. Alonzo Harlow and Lieut. Jas. D. Edgar spent several days fishing on the St. Francis river the past week. They made a success of it. I know, for the evidence is before me—a 4½ pound bass out of the catch—a present from my young friends. Capt. Harlow landed this particular specimen, but both proved themselves expert anglers—and ye editor rejoiceth.

While driving from Farmington to Ironton last Sunday afternoon Miss Allie Patton at Steno came up with an automobile party that had met with an accident. Two men were quite badly hurt but a woman with them had fortunately escaped injury. Miss Patton took one of the men with her to Iron Mountain where he telephoned to Farmington for a surgeon. The accident was occasioned by running into a tree.

Mr. and Mrs. M. J. Crews who have made their home in Flat River for the past 23 years, left Wednesday morning for St. Louis where they will make their future home. They came here in the year of 1899 from Graniteville, and have lived here continuously since. They have made scores of friends in all sections of the Lead Belt who will sorely miss them, and who wish them happiness in their new home.—Lead Belt News.

Sank Robinson, the Poplar Bluff negro who was brought here last spring for safe keeping, having killed a white man by the name of Orville Farmer, had his trial in the Butler county circuit court last week and was found guilty of murder in the second degree, his punishment being fixed at ten years in the penitentiary. Robinson had a former trial last April which resulted in a hung jury.

Elsewhere in this paper is an article reproduced from the Fredericktown Democrat-News telling of the tragic death of Walter W. Strother, at one time a well known citizen of this county. Nearly twenty years ago he became identified with the Holiness movement and for several years was very active therein at Des Arc. He probably did more than any other man to establish the church there and build the college. Of recent years he had not been taking much part in the church work. He was, indeed, of an unusual composition but we hardly expected to hear of his being taken off in the manner that he was.

Voters who are away from their homes on the day of the primary election can go to the polls anywhere in the state and vote an absentee's ballot just the same as in the general election. Voters must take the proper oath before a judge of election when they are given an absentee's ballot to fill out. All of the spaces for county officers are blank and the voter must write in and complete the names of those for county offices for whom he wishes to vote. The ticket is turned in to the judges of election and is forwarded by registered mail to the clerk of the county court in the county for which the vote is intended and it is counted in with the regular vote for that county.

In appreciation of the work of a Kansas editor for the community, a bunch of citizens recently presented him with a bouquet. On the same occasion a quartette from a local church sang a few sweet songs and a minister made a little talk. After the minister's talk six husky men carried the popular editor from the house, placed him tenderly in a model 1921 plumed sedan and the whole town formed a parade behind the editor's expensive car. After this the appreciative crowd returned to their homes, serene in the thought of having provided one bright day in the life of their loyal news purveyor, even if they did wait until he was dead to do it.—Fairview, Kas., Enterprise.

The editor is in receipt of a letter from our former townsman, Mr. A. M. Madigan, now living in Colton, California. Among other things he says: "Well, as you can see by my

stationery, I am the "Kandy Kid" now. Business is, or has been, very good. Our temperature runs up as high as 106 and I have seen it up to 114, so you see it takes lots of cold drinks and ice cream. I have a beautiful Fountain and Candy Shop in a good location. I like Colton very much; have a bunch of good friends that are good boosters. This is a city of between five and six thousand and competition is very keen, but I have by far the best shop in town, so I think I won't have any trouble getting my share of the patronage. The strike will hurt us to some extent as this is a railroad center. We are all fine. Mother Davis is with us, has been for almost a year. Eugene and Schofield are big boys. Gene is almost as tall as his dad and S. is going to run him a close second. They both work for me."

From last week's Fredericktown Democrat-News: "Two diamond drills arrived at Mine La Motte this morning from Flat River to begin a thorough drilling of the property. It is said that several other drills will arrive within the next few days. The drilling is being done by the St. Joseph Lead Company, it is said, and their purpose is to make a rigid investigation of the mineral value of the property. For several months Mine La Motte has been yielding quite a quantity of lead. Prospectors have been digging it out under the energetic management of Mr. Yardley the production reached several carloads of concentrates. It is also the untiring energy and unlimited faith of Mr. Yardley that has brought about the present drilling of the property. It will be remembered that the property was sold under a foreclosure action at the court house here January 25th, 1921. It was bid in for \$75,000 by Philadelphia men who held bonds to the extent of more than a million dollars, and Mr. Yardley was continued in charge."

Ellington Press: "From all reports brought to us by the various candidates who have canvassed the county we are of the opinion that the biggest primary vote ever cast in this county will be polled August 1st. Of course the number will be nearly doubled on account of the woman vote, but the interest even among the men is greater than ever before. The Reed-Long Senatorial fight is interesting many. The high taxes are a source of continual complaint, and the existing sentiment among the voters is one of irritation and discontent. The voters are alive to the issues that confront them today, and they are far more interested in the men that are candidates than ever before. This is as it should be. People everywhere are breaking away from the ties of partisanship and are demanding to know the issues and how the candidates stand on those issues. We are looking for a great primary vote, and every man and woman voter that is able to go to the polls should go and vote at the August primary."

"Four diamond drills have already arrived at Mine La Motte in Madison county and two more are due to arrive at the property this week," says the Fredericktown Democrat-News: "These six drills, according to their owners, the St. Joseph Lead Co., will thoroughly drill out the historic lead property and definitely determine whether or not it contains the valuable lead deposits in which so many people have implicit faith. It is estimated that a million dollars has been spent drilling Mine La Motte since the advent of the drill. The records over a long stretch of years, however, are either lost or so poorly kept as to be almost worthless. That condition makes the work of the St. Joe people almost like going into an unprospected field. Most of the knowledge of Mine La Motte at the present time is of the very shallow deposit and no serious efforts have been made recently to mine the deeper deposits. While the lead-mining industry seems to be more promising in Madison county, St. Francois county is also apparently starting on an era of expansion."

METHODIST ASSEMBLY.

The 13th Annual Session of the Methodist Assembly opens under most auspicious circumstances. Never in the history of the organization have the advance reservations been as great; in fact, it has been necessary to rent a large number of cots and tents, in order to furnish accommodations for those applying.

The first week is taken up entirely by the Epworth Leaguers, from the various districts in the St. Louis Conference. These young people come full of enthusiasm, and a most interesting and profitable session is assured.

On next Sunday the sermon at 11 A. M. will be by Bishop McMurry, and all who have heard him will want to hear him again, and those who do not will be missing a rare treat if they fail to hear him then. Come, one and all, and help to make this the greatest Assembly ever held in Arcadia Valley.
